Dear ,

Jumping into your inbox with a quick reminder about abstract submissions for CitSciOz21, and a recap on recent citizen science publications...

CitSciOz21 Abstract Submission due Friday!

The [CitSciOz21](#) Call for Abstracts is closing **Friday 16th July**. Have you got yours in yet? We encourage you to submit your abstract while there is still time!

CitSciOz2021 will be held from October 27-29 online via Zoom, centring around the themes of **celebration, communication** and **co-creation**.

ACSA's conferences are a rare place where people doing many different kinds of work can come together to exchange ideas, meet collaborators and new mentors and overall be both challenged and inspired. While we cannot be together in person this year, CitSciOz21 is all about broadening our citizen science community, celebrating our achievements and providing a space where we can all share and learn together.

The deadline to submit your talk, symposium or workshop abstracts is coming up soon -- **July 16th**. Now is the time to bring together all of the great ideas and share your knowledge with our community.

Be a CitSciOz21 Sponsor

The CitSciOz21 Conference offers sponsors the opportunity to make CONNECTIONS with leaders in areas of science, policy, conservation, science education and practice. You can PROMOTE and raise your profile within the citizen science community, gain EXPOSURE for your brand and maximize visibility in the field of citizen science, and LEVERAGE your organisation's industry relationships.

Get your name in front of our conference attendees and 2000+ more individuals and organizations who receive communications about the ACSA Conference! Want to learn more? Visit the [CitSciOz21 Sponsorships page](#).

With thanks to our current sponsors:

Australian Government
**Department of Industry, Science,
Energy and Resources**

Membership Fee Changes

As communicated to our Members last month, the growth of ACSA has meant that we now need to be GST-registered. Effective 1 July 2021, GST applies to our membership fees, entry fees for paid events and to merchandise. You can find the new membership fees here: citizenscience.org.au/join-now/

June Publications Listing

A big thanks to our new volunteer Andrew Kinsela for compiling the April-June 2021 list of citizen science publications. This detailed listing is up [on our website](#) now.
